

**OUR**

## **QUALITY POLICY**

Altec Metalltechnik GmbH builds on more than 20 years of experience in customer-oriented concepts of photovoltaic substructures and sheet metal forming.

To provide our customers innovative product solutions with outstanding quality and unique function is the ultimate goal of our company. This verified demands are an essential part in the fulfilling our customers' expectations.

The continuous improving quality policy is the base of our constant development and will secure the existence of our company in the future too.

With our quality work we processed ALTEC to a brand in Germany and beyond. To guarantee this further-

more and expand we always set new goals. Already existing goals get rated annually through management and responsible employees.

We know the wishes and issues of our customers. An important aim is the permanent guarantee of our customers' satisfaction. We only achieve this with flexible care as well as professional on time realization of projects and assignments from our motivated employees.

With an outstanding service even beyond over order completion we ensure long-term customers satisfaction and create trust towards them. The resulting customer connection secures the further existing of the company.

The base of our quality work is a stem of qualified, reliable, professional, highly motivated and operational employees who support and promote the corporate philosophy purposely. The employee is our most precious good because without his maximum care, correct work, diligence and full commitment the company's goals couldn't get achieved.

A far-reaching registration and analyse of data from all divisions are our basis for the valuation of existing quality goals.

The quality of our products gets secure while we prioritise all preventing measures to minimize the occurrence of mistakes. Thereby measures for continuous improvement are in the foreground.

The fair cooperation of employees, customers, suppliers and cooperation partners is a trademark of ALTEC Metalltechnik GmbH. Our consequent customer-orientation and flexibility stand out of the competition.
